FLC Updates

- **The 2025 FLC National Meeting will take place May 13-15, 2025, in Seattle, Washington.** [Submit your topics!](#)
- Join the September [Member Connect](#) with the USPTO on September 4 at 2 p.m. ET.
- Register for the [Lab Showcase: The NIST AI Bug Finder Test Bed](#), September 10 at 2 p.m. ET.
- Learn about the [FLC NAC: What, Why, and How](#) in the September 25 webinar at Noon ET.
- Celebrate your lab's T2 successes and submit for the [2025 FLC Awards](#) by October 18, 2024.
- Spotlight your commercialized technologies in the FLC's immersive virtual city, LabTech in Your Life, and [submit your technologies](#) before the September 13 deadline!

Tune in to the FLC Podcast

FLC Podcast: [Insights From 40 Years in R&D With T2 Veteran Dick Paul](#)

Dick Paul is a retired Air Force Major General

Dick Paul is a retired Air Force Major General with more than 40 years in research and development management. Dick was the first commander of the Air Force Research Laboratory, led as a vice president at Boeing, and now chairs the FLC's National Advisory Council. Learn from his experience as we dive into some of the biggest challenges facing technology transfer and how senior leaders can foster success. FLC Photo of the Week

Photo of the Week: Silent Swarm 2023

Silent Swarm is a series of events centered on experimenting with Electromagnetic Spectrum Operations technologies. In 2023 this event was held at the [Canadian Radio-television and Telecommunications Commission](#) and around Thunder Bay in Alpena, Michigan. [Naval Surface Warfare Center - Crane Division's Technology Transfer Office](#) facilitated the CRADAs for this event.

The Photo of the Week visually showcases the exciting work federal labs do every day! [Read more about this week's featured lab and technology.](#)

FLC 2025 Awards

FLC Spotlights

Did you know? Hospital equipment can spread infections if not cleaned properly. TrackMate, a disinfection tracking system developed in the Department of Veterans Affairs, helps monitor and ensure equipment is disinfected regularly, improving patient safety by reducing the risk of hospital-acquired infections. This innovative technology is now used in VA medical centers and other healthcare settings to enhance hygiene and

protect patients. [Learn more here.](#)
