Technology Transfer Stars

Samantha Zhang's Eagle Eye for Inefficiencies Helps Streamline Tech Transfer Processes at NETL

Samantha Zhang has made a career of streamlining federal technology transfer processes so stakeholders can spend less time on paperwork and more time developing and commercializing inventions. Learn more about the secrets to her success, including the two areas where she most often finds inefficiencies and how she gets buy-in from leadership for procedural improvements.

Navy Partner TDA Research Eyes Civilian Markets for Cooling Shirt that Reduces Risk of Heat Illness

Several Navy Small Business Innovation Research awards from the Office of Naval Research helped TDA Research develop a lightweight and durable cooling shirt to protect shipyard welders and other Navy personnel who spend long hours in hot conditions. The company is now exploring applications for the technology in non-military markets such as athletes and civilian laborers.
